The FAA Aeronautical Chart User's Guide is designed to be used as a teaching aid, reference document, and an introduction to the wealth of information provided on FAA 's aeronautical charts and publications. It includes explanations of chart terms and a comprehensive display of aeronautical charting symbols organized by chart type. The publication is only available as a digital download and can be found at Digital Aeronautical Chart User's Guide.

FAA Aeronautical Chart User's Guide

This guide is an absolute necessity for every aviator - both manned and unmanned pilots. The Chart User's Guide is an FAA publication that deciphers VFR sectionals for pilots. Plenty of detail, great examples, and clearly-worded explanations. I have owned one forever.
