There was no kissing babies, no pressing flesh, no barbecues, no rallies, no balloons,” said Donald Wright, a political scientist at the University of New Brunswick.

An election without rallies or baby-kissing: New Brunswick ...

'We found that if a mother was anxious or depressed, their baby had a more sensitive physiological response to stress during the test than did the babies of healthy mothers,' Mr Blanco-Dormond said.

Anxious mums can pass on their stress to their babies ...

The first sanctioned CRISPR baby experiments should be narrowly restricted to couples who otherwise cannot have healthy children—a relatively rare pool of people—and likely require international, collaborative supervision. The report stands out in that it doesn't explicitly discuss moral and ethical issues related to CRISPR babies.
