Saving, Investment, and the Financial System

Think of it as the foundation upon which your financial house is built. The reason is simple. Unless you inherit a large amount of wealth, it is your savings that will provide you with the capital to feed your investments. If times get tough and you require cash, you'll likely be selling out your investments at the worst possible time.

Saving vs. Investing Money

Understanding Savings . Savings comprise the amount of money left over after spending. For example, Sasha's monthly paycheck is \$5,000. Her expenses include a \$1,300 rent payment, a \$450 car ...

A savings account is basically just a place to put cash in to earn interest and save for the future. Some accounts are variable rates with easy access while others are fixed where access to your money is restricted. We also look at the halfway-house of notice account.

Savings - All Guides - MoneySavingExpert

If savings are not deposited into a financial intermediary such as a bank, there is no chance for those savings to be recycled as investment by business. This means that saving may increase without increasing investment, possibly causing a short-fall of demand (a pile-up of inventories, a cut-back of production, employment, and income, and thus a recession) rather than to economic growth.

Saving - Wikipedia

Keep in mind, paper savings bonds are no longer sold at financial institutions. But, you can buy savings bonds electronically through TreasuryDirect. Choose a Financial Professional. Financial professionals provide products and services that include investments, financial planning, and insurance.
