"Students, first of all, must learn a positive attitude toward revision. The process of revision, for most students, has not been concerned with finding meaning, but it has focused on editing superficial mechanical and grammatical errors to a preconceived and often not clearly understood standard."

The Craft of Revision. All academic writers have some sort of revision process, but that process is often either insufficient (just nibbling around the edges) or scattershot (catching some things but missing others). To improve our revision practices, we generally have to both deepen them and make them more systematic.

Having used The Craft of Revision last semester in a composition course for 18-20 year olds, I can report that many students turned in better-than-average autobiographical and critical essays. While reading about a chapter a week (there are nine), they worked through the revision process in eight weeks—twice in one semester. Most were pleased ...

So for me, revision is a combination of cutting away (like sculpting the sentence from stone) and also a constant layering of the language (like working with the sentence as you would clay). The palimpsestic layering part of the process often leads to sudden surprises—puns, oracles, and revelations—that I'm always looking for.
