The Rise Of The Imperial

The Rise of the Imperial Self establishes a genealogy of aristocracy and places America firmly within an aristocratic tradition originally articulated by St. Augustine, but adapted to American society by Alexis de Tocqueville. Ronald W. Dworkin then traces the evolution of American culture from Tocqueville's America, when American aristocracy was defined by a love of something beyond the self to today's preoccupation with individuality, self-expression, autonomy, and self-esteem—the ...

The Rise of the Imperial Presidency "James Madison believed that good government was one in which all three branches exhibited energy. Some scholars suggest that over time the executive branch has expanded its power constitutionally or in spite of the Constitution in relationship to the other two branches."
