Valeo's new-generation automatic parking system: while the system currently on the market offers the detection of spaces and automatic steering, leaving the driver to control the vehicle speed, Park4U® Remote (premiered at the 2011 Frankfurt Motor Show) is a fully automatic solution that even allows the driver to leave the vehicle before the ...

Park4U® : parking assistance system - Valeo

Valeo's four business divisions are constantly innovating to offer technologies that make vehicles cleaner, safer, more efficient, accessible and tailored to everyone's needs. By 2030, hybrid and electric cars are expected to account for one-third of global automotive production as demand for combustion engines declines.

/*->*/ Valeo beep&park™ 632202, is a parking assistance product featuring 8 sensors that are fitted on the front and rear of your vehicle, and 1 LCD display to visually alert the driver to obstacles.

Valeo beep&park™ | 8x Sensors + 1 LCD Display | Valeo Service

A manual transmission car does not have a Park gear like an automatic transmission car does. This means when you go to park your vehicle, you should make it a habit of putting the transmission in first gear after you shut off the engine.

5 Tips on How to Park a Manual Car (Especially on Hills)

Valeo offers a broad range of advanced driving and parking assistance systems. The close fit between these products adds genuine value to driving and parking by allowing motorists to use new functions. This range allows everyone to add optional equipment, no matter which vehicle they use. In this way, Valeo makes the very latest drive and park assistance technology on the market much more ...
